Inquiry

Eltrombopag is a drug of the class of thrombopoietin receptor agonists. Since 2010, the substance has also been approved in the EU, before that it was only approved in the US. In 2015, the indication of idiopathic thrombocytopenic purpura (ITP) was extended to include severe aplastical anemia (SAA), in which other therapies do not strike. No serious side effects have been observed, however side effects are very common.

Description

Formula $C_{25}H_{22}N_4O_4$

Molecular weight 442.50 g/mol

Molecular size small

Controlled Substance no

Precursor no

Indications Antihemorrhagics
