

Intermediates for BioPharma

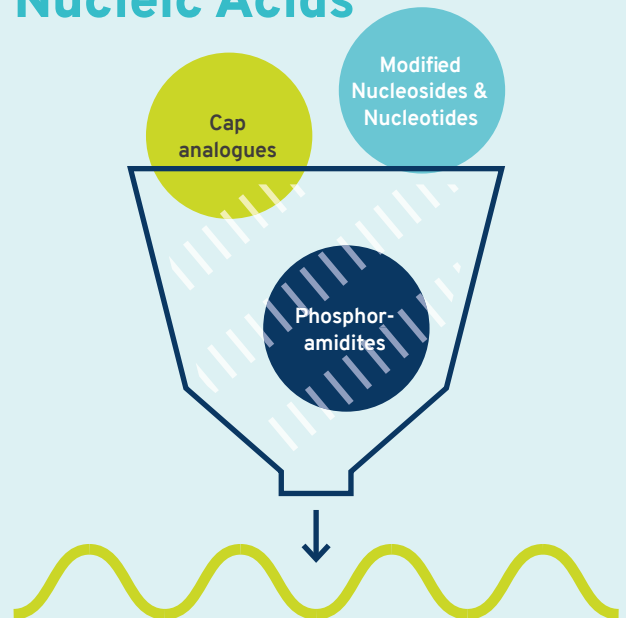

Midas offers building blocks for:

- RNA, DNA and Oligonucleotides
- Peptides
- Drug conjugates (ADCs, Peptides, etc.).

What we offer

- ✓ Full service, from enquiry to delivery
- ✓ Technical expertise (DNA/RNA, drug conjugate synthesis etc.)
- ✓ Quality and regulatory support
 - Qualified manufacturing partners with production at GMP compliant/certified sites from R&D to commercial
 - CMC documentation: Filing, Deficiency letters, Life Cycle Management
- ✓ Global sourcing and marketing network

Nucleic Acids

Our portfolio

Nucleic Acids

- RNA and DNA Building blocks
- Customized manufacturing services for phosphoramidites and Cap analogues
- Portfolio of (modified) phosphoramidites, tri-, di- and monophosphate nucleotides and protected nucleosides

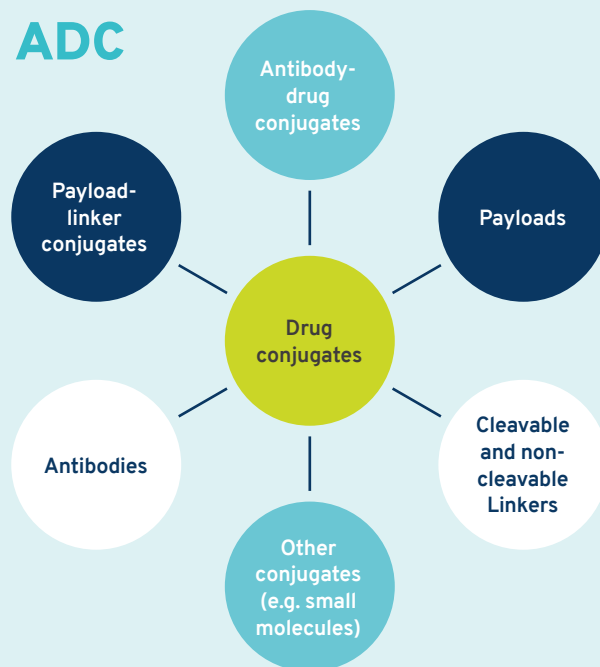

Antibody-drug conjugates

- One-Stop-Shop (from synthesis to bioconjugation)
- Cleavable and non-cleavable linkers
- Other drug conjugates e.g. peptide-drug conjugates

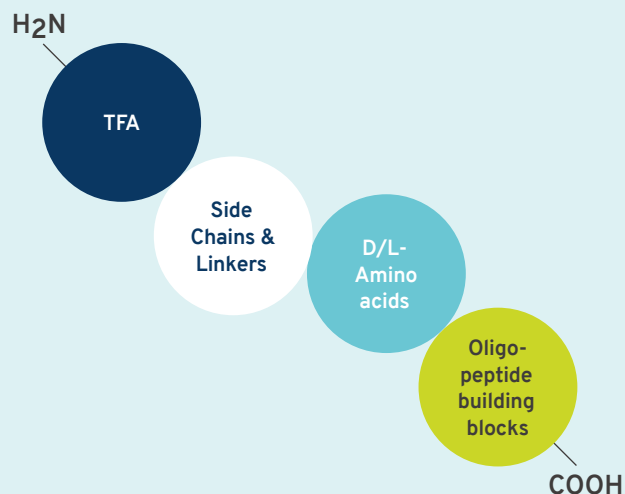

Peptides

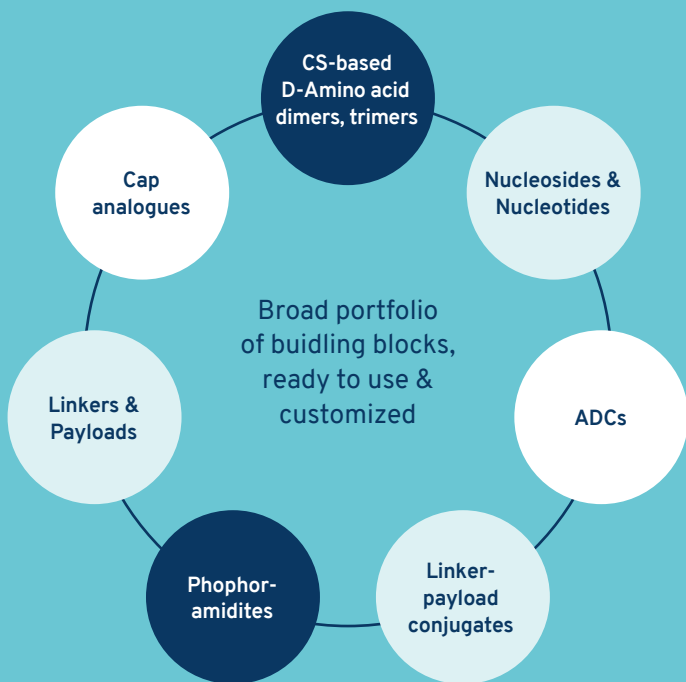

- Portfolio of natural and unnatural amino acids
- High chemical and optical purity > 99.9%

ADC

Peptides
